

CITY OF TIOGA, TEXAS

ORDINANCE NO. 346

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF TIOGA, TEXAS, ADOPTING A RIGHT-OF-WAY MANAGEMENT ORDINANCE; ESTABLISHING REGULATIONS FOR CONSTRUCTION, PLACEMENT, AND EXCAVATION IN RIGHTS-OF-WAY AND PUBLIC EASEMENTS; AMENDING THE MASTER FEE SCHEDULE TO ADOPT FEES FOR THE ADMINISTRATION OF THE RIGHT-OF-WAY MANAGEMENT ORDINANCE; PROVIDING FOR INCORPORATION OF PREMISES; PROVIDING FOR FINDINGS; PROVIDING FOR AMENDMENT; PROVIDING FOR A CUMULATIVE REPEALER CLAUSE; PROVIDING A SAVINGS CLAUSE; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR PENALTY; PROVIDING FOR PUBLICATION; PROVIDING FOR ENGROSSMENT AND ENROLLMENT; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Tioga is a General-Law municipality located in Grayson County, Texas (the "City"), created in accordance with the provisions of the Texas Local Government Code, the Texas Constitution and operating pursuant to the enabling legislation of the state of Texas; and

WHEREAS, the City is charged with maintaining control of and access to the right-of-way in order to protect the public health, safety, and welfare; and

WHEREAS, the City Council of the City (the "City Council") has determined that excavations in city streets may significantly interfere with the public use of the streets and resulting in negative impact to public safety, air quality, level of service on streets and sidewalks, and aesthetics of the community; and

WHEREAS, the City Council finds excavations in paved streets significantly degrade and shorten the life of the surface of the streets, and increase the frequency and cost to the public of requisite resurfacing, maintenance, and repair; and

WHEREAS, the City Council has determined that substantial public funds have been invested to build, maintain and repair the City streets and utilities and the City holds these streets and utilities as an asset in trust for its citizens; and

WHEREAS, it is desirable to adopt regulations to protect the structural integrity of City streets and safeguard the value of the public investment of the benefit of City residents by providing incentives to reduce the number of excavations in City streets, which will also reduce the number of service disruptions and excavations; and

WHEREAS, the City Council has determined that adoption of a right-of-way ordinance will comply with and promote the regulations in Chapter 283 of the Texas Local Government Code pertaining to Certificated Telecommunications Providers as well as the Texas Utilities Code and Chapter 284 of the Texas Local Government Code.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF TIOGA, TEXAS:

SECTION 1
INCORPORATION OF PREMISES

The above and foregoing premises are true and correct and are incorporated herein and made a part hereof for all purposes.

SECTION 2
FINDINGS

After due deliberations the City Council has concluded that the adoption of this Ordinance is in the best interest of the City of Tioga, Texas and of the public health, safety and welfare.

SECTION 3
STANDARDS

Ordinances concerning the establishment of engineering design standards and construction design requirements in effect at the time of adoption of this Code, as amended, are incorporated by reference as if set forth herein.

Ordinances concerning general construction standards for paving and drainage facilities, in effect at the time of adoption of this Code, as amended, are incorporated by reference as if set forth herein.

No entity, including other political subdivisions of the state, may extend a street into the city's corporate limits or connect a street to an existing city street without the prior written approval of the city council.

SECTION 4
RIGHT OF WAY MANAGEMENT

The Mayor shall appoint a right-of-way manager, who is the principal city official responsible for the administration of the right-of-way, right-of-way permits, the regulation of same and ordinances related thereto. The right-of-way manager may delegate any or all of the duties hereunder. The right-of-way manager shall have the duties, responsibilities and authority as specified for the right-of-way manager stated herein.

SECTION 5
DEFINITIONS

The terms, phrases, words, abbreviations and their derivations shall have the same meanings herein. When not inconsistent with the context words used in the present tense include the future; words in plural number include the singular number, and words in the singular include the plural. The word "shall" is mandatory and not merely permissive.

Abandoned facilities means facilities no longer in service or physically disconnected from the operating facilities, or from any other facilities, or from any other facilities that are in use or that still carry service.

Administration fee means the fee charged by the city to recover its costs incurred for right-of-way management; including, but not limited to, costs associated with registering applicants; issuing, processing, and verifying right-of-way permit applications; inspecting job sites and restoration improvements; determining the adequacy of the right-of-way restoration; revoking right-of-way permits and other costs the city may incur in implementing the provisions of this Ordinance.

Applicant means an owner or authorized agent of an owner, who submits an application for a permit under the provisions of this Ordinance.

Area of influence means that area around a utility excavation where the pavement and sub-grade is impacted by the excavation and is subject to more rapid deterioration due to the trench excavation.

Backfill means the following:

- (1) The placement of new dirt, fill, or other material to refill an excavation; or
- (2) The return of excavated dirt, fill or other material to an excavation.

Certificated Telecommunications Provider or “CTP” means a person who has been issued a certificate of convenience and necessity, certificate of operating authority, or service provider certificate of operating authority by the Texas Public Utility Commission or “PUC” to offer local exchange telephone service or a person who provides voice service as defined by V.T.C.A., Local Government Code ch. 283 or “the Act”.

City means the City of Tioga, Texas and the city’s officers and employees.

City project means the construction, location, maintenance, relocation, alteration, improvement, repair, removal or other work performed by the city, or its designee, in the public right-of-way or on any city utilities or city facilities.

City utilities means any water, sewer or drainage line or services owned and operated by the city.

Compaction refers to consolidating backfill material in a trench to prevent future settlement.

Comprehensive plan means the city’s comprehensive plan, as it exists or may be amended.

Construction means boring, the breaking of pavement, or the installation, modification, upgrade, maintenance, removal, or similar activities, within the right-of-way. The definition includes, but is not limited to, providing primary service, restoration, or maintenance of existing facilities within the right-of-way.

Contractor means any public or private person, subcontractor or organization, other than the city.

Day means business day unless otherwise specified.

Department means the city department of public works or a successor department that is responsible for management of the right-of-way and roadway infrastructure.

Emergency operations are defined as those operations and repairs necessary to prevent damage or injury to the health or safety of the public or any person and the work necessary to address or prevent an immediate service interruption. Upgrading of facilities, new service installation and neighborhood improvement projects are not emergency operations.

Excavation means any activity that removes or otherwise disturbs soil, pavement, driveways, curbs, or sidewalks in the right-of-way and does not include landscaping activity unless the activity removes or disturbs the paved portion of the right-of-way.

Facilities means the equipment, and property, including but not limited to, lines, poles, mains, pipes, conduits, ducts, cables, valves, manholes, handholes and wires located under, on, or above the surface of the ground within the right-of-way, and related facilities and equipment used or useful for the provision of utility services.

FCC means the Federal Communications Commission.

Governing body means the mayor and the city council of the City of Tioga, Texas.

Governmental entity means any county, township, city, town, village, school district, library district, road district, drainage or levee district, sewer district, water district, fire district or other municipal corporation, quasi-municipal corporation or political subdivision of the state or of any other state of the United States and any agency or instrumentality of the state or of any other state of the United States.

Holiday shall refer to days in which city offices are closed in observance of a holiday.

Main line shall refer to lines other than service connections used to convey the right-of-way user's product.

Major project means any project, which includes 300 or more linear feet of excavation or any excavation under pavement.

Network node means equipment at a fixed location that enables wireless communications between user equipment and a communication network.

Network Provider means a wireless service provider, or a person that does not provide wireless services and that is not an electric utility but builds or installs, on behalf of a wireless service provider, network nodes or node support poles or any other structure that supports or is capable of supporting a network node.

Pavement shall refer to streets containing Portland cement, asphalt, brick or other rigid or semi-rigid material that covers the surface of a street and their underlying subgrade and base.

Permit means a permit issued under this Ordinance authorizing excavation in the right-of-way.

Permittee means any person or right-of-way user to whom a permit is issued to excavate a right-of-way.

Perpendicular excavations means any trench with a centerline that when projected toward the centerline of the street, the two lines intersect at an angle of 90 degrees.

Person means any person, company, partnership, contractor, subcontractor, agency or other public or private entity, excepting the city.

Public inconvenience penalty shall refer to a penalty assessed to the right-of-way user who denies the public the use of public property for a time period greater than allowed by this Ordinance.

PUCT means the Public Utility Commission of Texas.

Registration means the annual application process of the right-of-way user to use any portion of the right-of-way.

Registration certificate shall refer to the document provided by the city, annually, upon approval of the application for registration.

Repair means the temporary or permanent construction work necessary to make the right-of-way useable.

Repair area means that area around excavation where the pavement and subgrade is impacted by an excavation.

Restoration means the process by which an excavated right-of-way and surrounding area, including, but not limited to, pavement and foundation structures, ground cover, landscaping, and monuments are returned to the same condition, or better than that which existed before the commencement of the work.

Resurfacing means any repaving, overlay, seal or reconstruction which creates a new pavement surface over the entire width of the street, excluding crack seals and localized base and pavement repairs.

Right-of-way or public right-of-way means the surface of, and the space above and below, any street, road, highway, freeway, tollway, lane, path, drainageway, channel, fee interest, public way or place, sidewalk, alley, boulevard, parkway, drive, fire lane or other easement now or hereafter held by the city or over which the city exercises any rights of management or control and shall

include, but not be limited to, all easements now held, or hereafter held, by the city, but shall specifically exclude private property.

Right-of-way manager means the right-of-way manager of the city, or his designee.

Right-of-way user means a person, its successors and assigns, that uses the right-of-way for purposes of work, excavation, provision of services, or installing, constructing, maintaining, or repairing facilities thereon, including, but not limited to, landowners and service providers.

Routine service operation means a work activity that makes no material change to the facilities and does not disrupt traffic.

Service means a commodity provided to a person by means of a delivery system that is comprised of facilities located or to be located in the right-of-way, including, but not limited to, gas, telephone, cable television, Internet services, open video systems, alarm systems, steam, electric, water, telegraph, data transmission, petroleum pipelines, or sanitary sewage.

Service connection shall refer to the line that serves no more than two individual customers or two meter banks.

Street means the paved portion of the right-of-way, whether fee or easement, that has been constructed, reconstructed, or resurfaced with concrete or asphalt or some other surface.

Surface mounted markers refers to any sign, post or other marker, which rises above the surface of the ground to show the location of an underground utility.

Thoroughfare means all roadways and streets classified on the city's comprehensive plan, as it exists or may be amended, including but not limited to a highway, tollway, major thoroughfare, minor thoroughfare, major collector, minor collector or local collector.

TMUTCD means the Texas Manual on Uniform Traffic Control Devices, as it exists or may be amended.

Traffic control representative shall refer to the designated representative of the right-of-way user who is responsible for work zone safety and compliance with TMUTCD. The right-of-way user shall ensure such person has adequate training, knowledge and authority to perform the responsibilities listed above.

Transport Facility means each transmission path physically within a public right-of-way, extending with a physical line from a network node directly to the network, for the purpose of providing backhaul for network nodes.

Trench shall refer to excavation deeper than 12 inches. This shall include linear trenches, holes, pits and etc.

Underground Facility Damage Protection Safety Act shall refer to the V.T.C.A., Utilities Code sec. 251.001 et seq. as it exists or may be amended.

Utility means any privately or publicly owned entity which uses right-of-way to furnish the public any general public service, including, without limitation, sanitary sewer, gas, electricity, water, telephone, petroleum products, telegraph, heat, steam or chilled water, together with the equipment, structures, and appurtenances belonging to such entity and located within and near the right-of-way. Poles are regulated herein only as specifically set forth in this Ordinance.

White lining means marking the excavation site with white washable marking paint or flags prior to requesting a utility location in order to further identify the site.

Wireless service means any service using licensed or unlicensed wireless spectrum, including the use of wi-fi, whether at a fixed location or mobile, provided to the public using a network node.

Wireless service provider means a person that provides wireless services to the public.

SECTION 6 **UTILITY COORDINATOR**

Each utility and right-of-way user shall name a utility coordinator who shall be the representative and point of contact for all communications from the city and who shall meet with the right-of-way manager when so requested.

SECTION 7 **FIELD UTILITY COORDINATION**

(a) The right-of-way user shall notify the department at each of the following times during a project:

- (1) Forty-eight hours before the start of construction;
- (2) Upon completion of the initial backfill; and
- (3) Upon completion of the project.

The right-of-way user shall make a request for a utility locate in compliance with the Underground Facility Damage Prevention and Safety Act.

(b) The use of markers, stakes, poles, barricades or other devices shall be used in such a way to avoid damage to adjoining property. The use of “nonwashable” markers is prohibited.

(c) Compliance with the Texas Utilities Code, as amended, is required at all times.

(d) All barricades, plates, cones, traffic directional equipment and all other traffic control devices owned, leased or used by the right-of-way user and used on or near any excavation shall

be clearly and visibly marked with the name of the permittee and/or right-of-way user or subcontractor, as applicable, at all times such equipment is used on or near the right-of-way. An exception to the marking requirement may be made in the sole discretion of the right-of-way manager in the event the traffic control equipment is not owned by the permittee or right-of-way user.

SECTION 8 **MAPS AND RECORDS OF REGISTRANTS**

(a) Within 30 days of passage of this Ordinance, each right-of-way user shall provide the city an accurate map of their service area. The map shall be in electronic format overlaid over the Grayson County and North Central Texas Council of Governments digital map, as applicable. In dual coverage areas, the city may request additional information to enable identification of right-of-way users.

(b) Each right-of-way user must maintain accurate maps and records of its facilities. If available, the city's road network may be provided in digital format upon request. The right-of-way user is encouraged to maintain their system maps geo-referenced to the city's geodetic network, which is on the Grayson County digital map or the North Central Texas Council of Governments digital map, as applicable. The map should include true bearings and distances to the nearest established street lines and official monuments, which shall be accurately described on the map. The right-of-way user will provide the city with digital information within 90 days of a request for maps from the city for any user with less than 50 miles of utilities within the city. All other right-of-way users shall provide the digital information within one year of the request. Thereafter, the data is to be provided to the city on an annual basis by January 1.

(c) If the maps and records submitted in response to any request by or requirement of the city include information expressly designated by the right-of-way user as a trade secret or other confidential information protected from disclosure by state law, the city and its agents, employees, or other representatives may not disclose that information to the public without the consent of the right-of-way user, unless otherwise compelled by an opinion of the attorney general pursuant to the Texas Public Information Act, as amended, or by a court having jurisdiction of the matter pursuant to applicable law. This subsection may not be construed to authorize a right-of-way user to designate all matters in its maps and records as confidential or as trade secrets.

SECTION 9 **NOTICE**

Notice for purposes of this Ordinance shall be made to the city via electronic message (e-mail), overnight courier (generally used carrier with tracing available) or hand delivery with signed receipt, facsimile to the department, or United States mail return receipt required.

SECTION 10
REGISTRATION

(a) Nothing in this section relieves a right-of-way user and/or utility from obtaining a permit under this Ordinance to perform work in the right-of-way.

(b) In order to protect the public health, safety, and welfare, a utility maintaining or operating existing facilities in the right-of-way must register with the right-of-way manager in accordance with the following requirements:

(1) The registration must be on a form furnished by the right-of-way manager and made in the name of the right-of-way user that owns the facilities.

(2) Registration expires December 31 of the following year after the first registration occurs. If the utility fails to renew registration by that date, the city will send by certified mail a notice of noncompliance to the address listed on the registration. If the utility fails to renew registration within 30 calendar days after the date of sending the notification, the facilities of the utility will be deemed to have been legally abandoned.

(3) If information provided as part of the registration changes, the utility must inform the right-of-way manager, in writing, not more than 30 days after the date the change occurs.

(4) The utility shall also include the following registration:

a. The name of the utility using the right-of-way, including any business name, assumed name, or trade name the utility operates under or has operated under in the city within the past five years.

b. If the utility is a CTP, the certificate number issued by the Texas Public Utility Commission.

c. The ordinance number of any franchise or license issued by the city that authorizes the utility to use the right-of-way.

d. The names, addresses and telephone numbers of at least two persons who will be general, day-to-day contacts for the utility. At least one of the addresses must be within the Dallas/Fort Worth metropolitan area.

e. The name and mailing address of the officer or agent designated as the person authorized to receive service of process on behalf of the utility.

f. The name, address and telephone number of any contractor or subcontractor, who will be working in the right-of-way on behalf of the utility. This list may be amended as needed by the utility; however, no work shall be

performed in the right-of-way by a contractor or subcontractor that is not on the list, regardless of whether a permit is required.

g. The names and telephone numbers of at least two persons serving as emergency contacts who can be reached by telephone 24 hours a day, seven days a week. The telephone numbers should be accessible without the city having to pay long distance telephone or toll charge.

h. Proof of existing insurance that complies with Section 65.

(c) Upon completion of registration, the city will provide the right-of-way user a registration certificate valid until the end of the calendar year during which the registration was completed. The right-of-way user may make as many photocopies of the registration certificate as necessary. The right-of-way user is responsible for ensuring that all contractors, listed in accordance with Section 10 above have a copy of the registration certificate on site when work is being conducted under the provisions of the registration certificate.

SECTION 11 **TRAFFIC HANDLING TRAINING**

The right-of-way user is responsible for work zone safety including, but not limited to, traffic control through the designated traffic control representative. The representative is responsible for compliance with the TMUTCD and the traffic control plan (if required) at all work zone sites. The traffic control representative shall ensure employees on the job site have adequate training.

SECTION 12 **REPORTING OBLIGATIONS**

All right-of-way users shall, upon request, provide proof of any necessary permit, license, certification, grant, registration, franchise agreement or any other authorization required by any governmental entity, including, but not limited to, the city, state, or federal government, or railroad or pipeline company, including a description of the right-of-way user's intended use of the right-of-way, information sufficient to determine whether the right-of-way user is subject to franchising or licensing by the city, and information to determine whether the right-of-way user has applied for and received any certificate of authority required by the PUCT. The information provided shall be sufficient enough to determine whether the right-of-way user has applied for and received any permit or other approvals required by the FCC. Right-of-way user shall provide all such other information as may be reasonably required by the city to complete the registration statement.

SECTION 13 **SURFACE MOUNTED MARKERS**

Where surface mounted markers are needed, curb mounted medallions shall be used whenever possible.

SECTION 14
**RELOCATION OF FACILITIES FOR CITY PROJECTS
AND PUBLIC IMPROVEMENTS**

- (a) In the exercise of governmental functions, the city has first priority over all uses of the right-of-way. The city reserves the right to, among other things, lay water, sewer, drainage, and other pipelines or cables and conduits, and to do underground and overhead work, and attachments, restructuring, or changes in street facilities in across, along, over, or under a public street, alley or right-of-way occupied by an agency or right-of-way user, and to change the curb, sidewalks, or the grade of streets.
- (b) The right-of-way user must relocate its facilities, at its own expense and in accordance with Section 40, prior to the start of construction of a city project. Failure to comply with this provision shall subject the right-of-way user to the enforcement provisions contained herein.
- (c) A permit will be required when making facility adjustments in preparation for city projects.

SECTION 15
SURFACE MOUNTED MARKERS

It is unlawful for any person, its agents, servants or employees to dig, plow, blast, make cuts, openings, bore, tunnel, excavate or close lanes on a thoroughfare without first having made application and obtained a permit therefore in compliance with the Public Right-of-Way Permitting and Construction Manual, promulgated and amended by the right-of-way manager, except for as allowed by this section. It is unlawful for any person, its agents, servants or employees to make or cause to be made any excavation in or under the surface of any right-of-way for the installation, repair or removal of any facilities, or for any other purpose without first obtaining from the right-of-way manager a permit in compliance with this Ordinance.

- (1) Before issuing a permit, the right-of-way manager shall have been provided a written application, on a form furnished by the right-of-way manager, setting forth the name and residence or business address of the applicant; the location and approximate area of the excavation, including its approximate length and width, and, if the excavation is in a street, whether it is parallel or transverse to the direction of the travel lanes; and, the purpose of the excavation. The application form shall include plans prepared in accordance with city specifications. Plans shall be drawn at a reasonable scale that legibly and accurately show all existing improvements and proposed work. All proposed work must be shown in heavy or bold type lines and fonts. If proposed work is in phases or part of another overall drawing, show all existing and future work in lighter or faded out lines and fonts. If right-of-way user cannot show distinctive line weights, the plans shall clearly label the above information using text. When required by the Texas Engineering Practice Act, as amended, the plans must be sealed by a professional engineer licensed to practice in the state.

(2) At the time the permit is issued, the applicant shall pay a nonrefundable permit application fee in an amount as provided for in the master fee schedule of the city.

(3) The proposed location, depth and other characteristics of any facilities for which the permit is issued shall be subject to approval of the right-of-way manager, and all backfilling, compaction and pavement restoration performed for any excavation shall comply with the requirements of this Ordinance.

(4) No fee or requirement authorized or imposed pursuant to this Ordinance shall be construed to affect or alter in any way any obligation of public and/or private utilities with facilities installed in any right-of-way to relocate the facilities, at no cost to the city, subject to state law, if applicable, in the event that relocation is required by the city to accommodate a proper governmental use of the right-of-way.

(5) Combinations of permits shall be permitted at the sole discretion of the right-of-way manager. Fees shall be assessed based on the excavations permitted.

(6) Subdivision monuments, historical markers, and any other signs or structures with foundations in the right-of-way, excluding billboards, are subject to this Ordinance.

SECTION 16 **EXCEPTIONS TO REQUIRED PERMIT**

(a) The right-of-way manager reserves the right in his discretion to require a right-of-way permit on service connections. Unless otherwise required by the right-of-way manager, service connections do not require a permit if all of the following conditions are met:

(1) The service connection excavation shall not exceed four feet inside the right-of-way to property line;

(2) All excavation shall be in accordance with service connection drawings;

(3) The address for the service connection is on the city provided form, which is submitted to the right-of-way manager via e-mail. Work shall not begin until the electronic form is transmitted to the right-of-way manager;

(4) The excavation required is less than 12 inches in depth;

(5) The excavation is no wider than two inches or is hand dug; and

(6) The service connection does not require boring.

(b) Irrigation system installation requires a permit per existing city codes.

SECTION 17
PERMIT APPLICATION

(a) Application for a permit shall be addressed to the right-of-way manager and made on a form furnished for that purpose, stating the extent, dimensions, character and purpose of the cut or excavation to be made, the location, by street and number if possible, where the work is to be done, and the time in which it is to be completed. The application form shall be accompanied by maps of the existing facilities in the area, to the extent available, and the location of the proposed facilities, methodology of construction, and proposed start and completion dates. When the work includes excavating, which will exceed five feet in depth, a trench safety design sealed by a licensed professional engineer shall also accompany the application, unless otherwise provided by law.

(b) A permit shall only be valid for the area of the right-of-way specified within the permit. No permittee may cause any work to be done outside the area specified in the permit, except as provided herein. Any permittee who determines that an area is greater than that which is specified in the permit must apply for and receive a new right-of-way permit.

(c) Fees shall apply to all right-of-way users unless governed by an existing agreement with the City. Applicants may apply jointly for permits to excavate the right-of-way at the same time and place. Applicants who apply jointly for a right-of-way permit may share in the payment of the permit fee. Applicants must agree among themselves as to the portion each shall pay. The city will recognize only one point of contact.

(d) Permits will be issued or denied within ten (10) days of the city receiving a complete application. Permits shall be valid for the dates specified in the permit. The applicant may request but is not guaranteed the permit be valid for such longer period as may be necessary in the circumstances, in advance, as part of the application. The city may approve or deny the application for such extended permit period. No permittee may commence work before the permit start date and, except as provided herein, no permittee may continue working after the end date. If a permittee does not complete the work by the permit end date, the permittee must apply for and may receive a new right-of-way permit or a permit extension for additional time. This supplementary application must be submitted to the city prior to the permit end date. Applicants are encouraged to request a pre-submission meeting for large projects.

(e) An expedited permit may be requested, and shall be issued or denied within five (5) days of application upon a showing of good cause, as solely determined by the right-of-way manager.

SECTION 18
ISSUANCE OF PERMIT

Every person making application for a permit in accordance with the provisions of this Ordinance, and having complied with such provisions, shall be entitled thereto, and, upon filing such application with the right-of-way manager, it shall be his duty to issue the permit, when the provisions of this Ordinance have been complied with.

(1) Upon receiving a written application for a permit and a plan prepared in accordance with the city specifications, the right-of-way manager's designee shall set forth all requirements, approve or disapprove the application, sign and return it to applicant. Excepting only emergency excavations, at least forty-eight (48) hours prior to the start of work, the applicant shall notify the right-of-way manager the date the work will commence when traffic control devices are necessary on a thoroughfare.

(2) No permit shall be transferable. A permit shall be void unless the excavation to be made pursuant thereto is commenced within the time stated therein and the work diligently completed.

(3) Each permit shall state a time period for completion of all the work to be done hereunder. The right-of-way manager may in his sole discretion, grant extensions of time.

(4) No person in violation of any requirement of this Ordinance shall be issued an excavation permit, nor shall any contractor or agent apply for or be issued a permit on the person's behalf, until the outstanding violation is/are corrected or a plan for correction is approved by the right-of-way manager. The foregoing requirement is in addition to any penalty or remedy for violation that may be imposed or sought by the city at law or equity.

(5) No work shall be done under any permit issued under this Ordinance except as stated in the permit. If the permit is allowed to expire, the right-of-way user shall procure a new permit, paying the applicable fee, prior to proceeding with any such work.

SECTION 19 **POSTING OF SIGNS**

The right-of-way user and contractor (if used) shall be identified by three feet by three feet information signs on all work requiring a permit. The signs shall state the name and phone number of the right-of-way user and contractor (if used). The signs shall be placed in the right-of-way on each approach to the location where construction is occurring from the time of the beginning of work in the right-of-way and shall continue to be posted at the location during the entire time the work is occurring.

SECTION 20 **EXCAVATION TO BE UNDER SUPERVISION OF RIGHT-OF-WAY MANAGER**

(a) Any right-of-way user engaged in making or backfilling any excavation in any right-of-way shall, at all times while such work is in progress, keep at the job location the permit, or a copy thereof, and shall provide of the same, when requested by any authorized city employee. At all times while the work is in progress, the right-of-way user shall also maintain, at the job location, a sign, barricade or other device bearing the right-of-way user's name.

(b) The right-of-way user shall protect from damage, utility conduits, sewer conduits, water conduits, lawns, shrubbery, trees, fences, structures, irrigation, sidewalks, streets, signs, street lights, or other property at, near or encountered in its work. The right-of-way user shall determine the boundary of the right-of-way.

(c) All excavations and other construction in the streets shall be conducted so as to interfere as little as practicable with the use of right-of-way and with the use of private property, in accordance with any lawful and reasonable direction given by or under the authority of the governing body of the city pursuant to the policy and regulatory powers of the city necessary to provide for public convenience. The right-of-way user shall not trespass upon private property. The right-of-way user shall determine the boundary between right-of-way and private property and place stakes/markers indicating the boundary to remain in place for the duration of the work.

(d) The city reserves the right to among others, lay, and allow to be laid, electricity, sewer, gas, water and other pipe lines or cables and facilities, as well as drainage pipes, and channels and streets, and to perform, and allow to be performed, any underground and overhead installation or improvement that may be deemed necessary or proper by the governing body of the city, in, across, along, over or under any right-of-way or public place occupied by a right-of-way user and to change any curb or sidewalk or the grade of any street and to maintain all of the city's facilities. In allowing such work to be performed by others, the city shall not be liable to a right-of-way user for any damage caused by those persons or entities. Nothing herein shall relieve any third party from responsibility for damages caused to a right-of-way user by such third party.

(e) All transmission and distribution structures, lines, equipment and facilities erected by a right-of-way user within the city shall be so located as to cause minimum interference with the proper use of the right-of-way, and to cause minimum interference with the rights and reasonable convenience of property owners who join any of said streets. No pole may be placed in an area prohibited by another section of this Ordinance or which interferes with the public's unimpeded use of the right-of-way.

(f) If the city requires a right-of-way user to adapt or conform its facilities, or in any way or manner to alter, relocate or change its property to enable any other corporation or person, except the city, to use, or to use with greater convenience, any right-of-way or public place, the right-of-way user shall not be required to make any such changes until such other corporation or person shall have undertaken, with solvent bond, to reimburse a right-of-way user for any loss and expense which will be caused by, or arise out of such removal, change, adaptation, alteration, conformance or relocation of a right-of-way user's facilities; provided, however, that the city shall never be liable for such reimbursement.

SECTION 21
REGISTRATION CERTIFICATE REQUIRED

It is unlawful for any person, its agents, servants or employees to perform construction in the right-of-way without first having made either application and obtained a permit therefor or have in possession a valid registration certificate. A registration certificate may only be used for construction activities not requiring a permit in accordance with this Ordinance. These activities

include tree trimming, general maintenance, line work and providing a service connection from the property line to a customer provided the activity complies with Section 10.

SECTION 22
HOURS OF OPERATION FOR NON-EMERGENCY WORK

(a) Excavation and boring shall be conducted between 7:00 a.m. and thirty (30) minutes before sundown on Monday through Friday, except on holidays. No excavation or boring shall be performed on holidays.

(b) All other work requiring an inspection shall be done between 7:00 a.m. and thirty (30) minutes before sundown on Monday through Friday, except on holidays. No work shall be performed on holidays. A right-of-way user may work on Saturday subject to the approval of the right-of-way manager and a notification no later than noon on Thursday before the Saturday in which the work is to be performed. The Saturday inspection fee must be paid prior to noon on Thursday prior to the Saturday in which the work is to be performed.

SECTION 23
DENIAL OF PERMIT

A permit may be denied or suspended for any of the following reasons:

- (1) Failure to provide proof of a surety bond or liability insurance acceptable to the city or notice of termination of the same.
- (2) Failure to secure a contractor's license or other required license.
- (3) Failure to perform in accordance with the requirements of this Ordinance.
- (4) The excavation would be in a street and not otherwise permitted by this Ordinance.
- (5) The proposed warning or other traffic control procedures or equipment do not comply with the requirements of the TMUTCD or the requirements of the right-of-way manager.
- (6) The proposed activity would violate any city ordinance or state or federal law, rule, regulation or statute.
- (7) The permit application contains false or misleading information.
- (8) The activity would cause a public health or safety hazard.
- (9) The right-of-way user is not authorized within the city.

(10) The right-of-way user is in violation of this Ordinance relative to work in progress.

(11) The right-of-way user has not compensated the city, unless the user is not legally obligated to compensate the city by contract, by agreement or by law, for using the public property; or the right-of-way user has failed to timely make required payments.

SECTION 24 **APPEAL**

A right-of-way user that: (i) has been denied registration; (ii) has been denied a permit; (iii) has had a permit revoked; or (iv) believes that fees imposed are invalid, may have the denial, revocation, or fee imposition reviewed, upon written request as follows:

(1) If an applicant desires to appeal a decision, the applicant may file a written notice of appeal with the right-of-way manager within five business days of the date the decision was rendered. The notice must state the alternatives available and routes explored, hardship encountered, cost comparison of other alternatives and a statement of any other significant factors. The right-of-way manager shall provide a written decision within five business days. Failure to render a decision within five business days shall constitute a denial.

(2) If a further denial is given, the appellant may thereafter file a written notice of appeal to the Mayor within five business days of receipt of the right-of-way manager's written decision. The Mayor shall provide a written decision within five business days of receipt of an appeal in accordance with this section. Failure to render a decision within five business days shall constitute a denial.

SECTION 25 **TECHNICAL SPECIFICATIONS**

(a) The use of the right-of-way in any manner which violates federal, state, or local laws, or city codes, ordinances and regulations, including, without limitation, those relating to health, safety, noise, environmental protection, waste disposal and water and air quality, is prohibited. All permittees shall provide satisfactory evidence of compliance with the foregoing upon request of the city.

(b) The permittee shall dispose of all material removed from the right-of-way and any waste created by permittee in compliance with all state, federal and local laws and requirements. Temporary storage of material may be placed in a pile no higher than 30 inches.

(c) If a permittee excavates any contaminated, regulated or hazardous materials in the right-of-way, such permittee shall be responsible for environmental assessment, excavation, testing, transportation and disposal of that material in accordance with applicable law. The permittee shall promptly notify the city, orally, of the condition within two hours of discovery of any

contaminated, regulated or hazardous materials in the right-of-way, and within eight hours provide the aforementioned information to the city in writing. The permittee must consult with and receive written authorization from the city before undertaking any of the steps/actions set forth in this subsection.

SECTION 26
COMPLIANCE WITH SAFETY REGULATIONS

The permittee and right-of-way user shall comply with all applicable federal, state and local safety regulations and requirements, including, by example and not limitation, the occupational safety and health standards for the construction industry.

SECTION 27
CONFORMANCE WITH THE THOROUGHFARE PLAN

A right-of-way user should consult the city's thoroughfare plan prior to the acquisition of any interest in real property in the city for the installation or relocation of service lines or other equipment or facilities along or adjacent to any street, right-of-way, thoroughfare, highway, or any proposed street, right-of-way, highway or thoroughfare to attempt to minimize any future conflict regarding the location of such facilities. All right-of-way users are charged at all times with constructive notice of the thoroughfare plan. The city shall, at a minimum, have no liability for the value of or loss by a right-of-way user of any improvements constructed in the area shown on the thoroughfare plan, except as provided herein. Typical locations of city facilities are depicted in the city standard details.

SECTION 28
TREE TRIMMING AND GRAFFITI ABATEMENT

Permission is granted to a right-of-way user, subject to the requirements of this code, as it exists or may be amended from time to time, to trim trees upon and overhanging the right-of-way, so as to prevent the branches of such trees from coming in contact with a right-of-way user's facilities. When so directed by the city, the tree trimming shall be done under the supervision and direction of the city. The right-of-way user shall make the necessary repairs or restoration, including, but not limited to, cleaning of graffiti, as soon as practicable but not to exceed seven days after the right-of-way user discovers or learns of any misuse, destruction, damage or vandalism to its facilities.

SECTION 29
EMPLOYEE COMMUNICATION

The right-of-way user shall ensure that there is at least one employee on the job site, during any type of work activity, who can read, write and speak English fluently.

SECTION 30
SURFACE MOUNTED MARKERS

The city reserves the right, in the permit or otherwise, to restrict or determine the route (pathway) and/or spatial location, whether horizontal, vertical or depth, of any facility and/or structure or improvement in the right-of-way. The city reserves the right to reserve space for future utilities.

SECTION 31
SURFACE MOUNTED MARKERS

After obtaining the permit and prior to commencing the work, the permittee shall notify the right-of-way manager, and shall commence and complete all work within the time specified in the permit, unless an extension of time is granted by the right-of-way manager. No work shall commence until erosion control measures (e.g. silt fence) and advance warning signs, markers, cones and barricades are in place.

SECTION 32
NOTIFICATION OF AFFECTED PROPERTY OWNERS

Except in the case of an emergency, whenever excavation is required in the right-of-way adjacent to an occupied property, the right-of-way user shall notify the property owner of the activity through use of a door hanger, which shall include the following information:

- (1) Permit number;
- (2) Identify of the contractor and the right-of-way user, including a contact name and phone number by which more information regarding the project could be obtained and a 24-hour a day emergency phone number; and
- (3) The anticipated duration of the construction work.

SECTION 33
SAFE CONDUCT OF WORK

Every permittee and right-of-way user shall prosecute its work diligently and in a good, safe, and workmanlike manner, and shall safeguard and protect the public, using the street or right-of-way where the work is being performed, from accidents or damage by placing barriers, lights and other sufficient safeguards around all cuts, openings and excavation, in accordance with TMUTCD. All material, implements and tools stored upon the premises and used in connection with the excavation shall be stored in a safe and nonhazardous manner.

SECTION 34
REVOCAION OR SUSPENSION OF PERMIT

The city reserves its right, as provided herein, to revoke or suspend any permit, without refund of the permit fee, in the event of a breach by the permittee of the terms and/or conditions of the permit, this Ordinance and/or any other city ordinance. A breach of the terms of the permit shall include, but not be limited to any of the following:

- (1) The violation of any provision of the permit.
- (2) An evasion or attempt to evade any provision of the permit, or the perpetration or attempt to perpetrate any fraud or deceit upon the city or its citizens.
- (3) Any material misrepresentation of any fact in the permit application.
- (4) The failure to meet insurance, surety bond or indemnification requirements.
- (5) The failure to complete the work as specified in the permit.
- (6) The failure to correct a condition indicated on an order issued pursuant to this Ordinance.
- (7) Repeated traffic control violation(s).
- (8) Failure to protect facilities or repair facilities damaged in the right-of-way.
- (9) Violation of any part of this Ordinance.
- (10) Recognition by the right-of-way manager that a permit was issued in error.
- (11) Failing to comply with an order of the right-of-way manager on the permit and any other valid permit held by the right-of-way user.
- (12) Any safety violation or other action that threatens the health, welfare and/or safety of the public as solely determined by the right-of-way manager.

If the right-of-way manager determines that the permittee has committed a breach of any law or condition of the right-of-way permit, the right-of-way manager shall make a written demand upon the permittee to remedy such violation. Continued violation may be cause for revocation of the permit or legal action, or both. The right-of-way manager may, in his discretion, revoke the permit, provide specifications to cure the breach, or both. Within two business days of receiving notification of the breach, permittee shall contact the right-of-way manager with a plan, acceptable to the right-of-way manager, for correction of the breach. Permittee's failure to do so or permittee's failure to timely implement the approved plan shall be cause for revocation of the permit.

SECTION 35

WORK NOT IN ACCORDANCE WITH PERMIT DECLARED UNLAWFUL

(a) It shall be unlawful for any person to make, cause or allow to be made, any excavation, or to install, cause or allow to be installed any tank, pipe, conduit, duct, tunnel, utility pole or other utility or appliance in or under the surface of any street, alley, sidewalk, right-of-way or other public place, at any location, other than that described in the application for the permit and as shown on the plans filed with the right-of-way manager, and in accordance with the requirements of the permit. If the circumstances appearing after the excavation is commenced make it impossible to comply with the permit, the right-of-way manager may, in his sole discretion, grant a waiver to take the circumstances into account.

(b) Failure to comply with requirements set forth in this Ordinance or on any permit shall be cause for revocation of the subject permit and of any other permits held by the same permittee until the violations have been corrected or the right-of-way manager has approved alternative requirements.

SECTION 36

WORK DONE WITHOUT A PERMIT

No cut, excavation, grading or disturbing of the right-of-way or wires on poles, in any way, shall be made, other than excavations necessary for emergency work, without first securing a permit. No person or right-of-way user shall, at any time, open or encumber more of the right-of-way than shall be reasonably necessary to complete a project in the most expeditious manner.

SECTION 37

CESSATION OF WORK

At any time, the right-of-way manager may order the immediate cessation of any work that poses a threat to the health, safety or well-being of the public. The right-of-way manager may revoke the permit of any permittee in any instance where there is a threat to the health, safety or wellbeing of the public.

SECTION 38

VIOLATION OF STANDARDS; NOTICE

The right-of-way manager may issue a written notice to the permittee indicating work that does not conform to the terms of the permit, applicable standards, conditions, codes or other applicable regulation. Within five days after issuance of written notice, the permittee shall present proof to the right-of-way manager that the violation has been corrected. If such proof has not been presented within the required time, the right-of-way manager may revoke the permit.

SECTION 39
LOCATION AND RELOCATION OF FACILITIES

Subject to applicable federal, state, and local laws, the right-of-way user shall, upon the request of the city, which shall be in writing, locate and/or relocate its facilities situated within any right-of-way, at no expense to the city, where reasonable and necessary to accommodate any city project. The written request provided by the city shall state the date by which the relocation by the right-of-way user shall be completed and a reasonable amount of time shall be provided by the city. When relocation is necessitated by federal government requirements, which includes reimbursements of costs, the city will reimburse applicant for its proportionate share from funds provided to the city in such reimbursements.

SECTION 40
RELOCATION FACILITIES FOR THE CITY

In the event the city finds it necessary to move a right-of-way user's facilities to protect the right-of-way, any city utilities and/or street, the city shall notify the local representative of the right-of-way user. Right-of-way user shall promptly move or facilitate the relocation of the subject facilities at right-of-way user's sole expense.

SECTION 41
ABANDONED FACILITIES

- (a) A right-of-way user owning abandoned facilities in the right-of-way shall:
- (1) Remove its facilities and repair, at its sole expense, any damage caused by the removal. The right-of-way manager may allow some or all facilities to remain if the right-of-way manager determines same is in the best interest of the public to do so; or
 - (2) Provide information satisfactory to the city that the right-of-way user's obligations for its facilities in the right-of-way have been lawfully assumed by another authorized right-of-way user.
- (b) The facilities of the right-of-way user who fails to comply with this section, and those facilities which remain unused for two years, shall be deemed to be abandoned unless, within the aforesaid two-year period, the city receives written confirmation and reasonable evidence, as solely determined by city, that the right-of-way user intends to use the facilities. The city may exercise any remedies and/or rights it has at law or in equity, including, but not limited to, taking possession of the abandoned facilities or requiring the removal of the facilities by the right-of-way user at the right-of-way user's sole expense.

SECTION 42
UNDERGROUND SERVICE REQUIREMENTS

Placement of new utility support structures (poles) shall be prohibited for electrical distribution lines with 60,000 volts and less and all communication utilities, unless otherwise

allowed by other law or an existing franchise agreement between the right-of-way user and the city or a PUCT tariff. This does not prohibit replacing existing poles for maintenance purposes.

SECTION 43
LOCATION OF POLES AND CONDUITS

All poles in the right-of-way shall be of sound material and straight, and shall not interfere with the flow of water in any gutter or drain, and shall be placed so as not to interfere with vehicular and pedestrian travel. The location and route of all conduits, fiber, cables, utilities and facilities placed and constructed by a right-of-way user in the construction and maintenance of its system in the city shall be subject to the reasonable and proper control, direction and approval of the city. Placement of poles and anchor guys along curvilinear streets shall comply with city ordinances and regulations.

SECTION 44
SIZE AND LOCATION OF ABOVEGROUND FACILITIES

The maximum dimensions for ground mounted utility structures above the ground in the right-of-way adjacent to streets are seven feet long (parallel to the road), two feet wide (perpendicular to the road) and six feet in height. For structures three feet or less in height, the width may be 44 inches. This does not include poles. The height of utility structures shall be measured from the lowest grade at any point 18 inches or less from the side of the structure that faces the street to the highest point of the structure. Utility structures exceeding those dimensions shall not be located in the right-of-way adjacent to streets, unless otherwise approved in writing by the right-of-way manager. All aboveground facilities shall be located outside of the corner visibility triangle at all intersections, future intersections and all driveways. No aboveground facilities may be placed in a parkway that is across from a median opening.

SECTION 45
HEIGHT OF OVERHEAD LINE

The user shall ensure all overhead lines are constructed and maintained so that the minimum clearances are in compliance with the National Electrical Code as it exists or may be amended.

SECTION 46
ATTACHMENT TO POLES

- (a) Nothing shall obligate or restrict a right-of-way user from exercising its rights to enter into pole attachment, pole usage, joint ownership or other wire space or facilities agreements with light and/or power companies or with other wire-using companies authorized to operate within the city.
- (b) A right-of-way user shall utilize existing pole space, conduit, and other facilities whenever reasonably and/or economically possible.

(c) Antennas must be mounted to the top of the pole, or flush to the pole near the top, in a screen that is coated or painted an approved color to match the pole to camouflage the installation.

(d) Equipment, other than antennas, must be in an underground vault. Vaults must be flush to the ground.

(e) If the existing pole already has more than two existing risers/drops, the pole must be replaced with a metal pole and all wires and cables must be run in conduit inside the pole. The existing drops will also be relocated inside the new pole and underground entry into the pole through the foundation is required. When installation will result in two or fewer risers/drops on the pole, the wires and cable may be installed as a riser/drop in conduit painted an approved color.

SECTION 47 **TEMPORARY REARRANGEMENT OF AERIAL WIRES**

The right-of-way user shall rearrange its transmission media temporarily as necessary to permit the moving of houses or other bulky structures. The requesting parties shall, pay the reasonable and necessary expense of such temporary rearrangements. The right-of-way user shall in a reasonable time frame and reasonable cost, remove its transmission media in connection with the demolition of unsafe structures, including emergency or ordered demolitions at no cost to the city. The right-of-way user may invoice the requesting parties for the cost of this work, where applicable.

SECTION 48 **STREET CLOSURES**

(a) All lane closures on any thoroughfare shall comply with TMUTCD, and shall include a lane closure exhibit to be submitted with the permit to the right-of-way manager. The right-of-way manager may require a traffic control plan. Arrow boards and message boards may be required for lane closures on thoroughfares.

(b) Except in an emergency, no thoroughfare shall be closed on weekdays during the hours of 6:30 a.m. to 9:00 a.m. and 3:30 p.m. to 7:00 p.m. or outside normal working hours of the city. Every day of the week, all roadways shall be open to traffic by sunset on the same day as the construction.

(c) All lane closures require 24-hour notification of the police and fire departments prior to closing.

SECTION 49
**SITE MAINTENANCE DURING CONSTRUCTION
AND PRIOR TO FULL RESTORATION**

(a) Erosion control and stormwater management. The right-of-way user shall be responsible for stormwater management, erosion control and excavation safety measures that comply with city, state and federal guidelines. Requirements shall include, but not limited to, construction fencing around any excavation that will be left overnight, silt fencing in erosion areas until reasonable vegetation is established, barricade fencing around open holes, and high erosion areas will require wire backed silt fencing. Upon request of right-of-way manager, the right-of-way user may be required to furnish documentation submitted or received from the federal or state government.

(b) Dust control. The right-of-way user shall ensure that the work is conducted and site maintained to minimize blowing dust. At any time dust leaves the job site so that it is a nuisance, the work will stop until measures can be taken to eliminate the dust.

(c) Traffic control safety. In the event of noncompliance with the TMUTCD, the right-of-way user shall be notified of the violation. In the event of continued noncompliance, the right-of-way manager may revoke the permit, in addition to any other remedies available to the city. At any time the right-of-way manager determines the work threatens public safety, he may take immediate action as necessary including but not limited to, stopping all work, or have a third party make the repairs at the expense of the applicant.

(d) Responsibility for signs, barricades and warning devices. The right-of-way user working in any right-of-way is responsible for the safe movement of traffic, both pedestrian and vehicular, through the construction area. The right-of-way user shall meet all requirements for barricading and traffic control as specified in the TMUTCD.

(1) Only those individuals who are qualified by means of adequate training in safe traffic control practices and have a basic understanding of the principles established by applicable standards and regulations, including without limitation, those in TMUTCD, may place and maintain the traffic control devices in a construction area.

(2) The right-of-way user must either: (i) subcontract the barricading to a firm specializing in traffic control; or (ii) submit the qualifications and name of employees to the right-of-way user manager for approval prior to the work commencing. The right-of-way user must also submit a traffic control plan for review when required by this Ordinance. All signs and barricades must conform to the requirements of the TMUTCD.

(3) All barricades, plates, and other traffic control equipment must conform to TMUTCD specifications and must be inspected and maintained by the traffic control representative.

(4) All barricades, plates and other traffic control equipment must display accurate and sufficient information including without limitation, the name of the right-of-way user.

(5) Noncompliance with the TMUTCD shall be cited in writing. In the event of noncompliance after citation, the right-of-way manager may place the necessary devices as required, and the right-of-way user shall reimburse the city for all such expenses as well as \$500.00 for noncompliance. Failure to comply with this provision may result in denial of application for future permits.

(6) All traffic control devices must be removed immediately upon completion of work.

(e) Duty to barricade. At all times during construction activity, the contractor and/or right-of-way user, as applicable, shall place and maintain all necessary and proper barriers and other safeguards, including without limitation, watchmen certified in accordance with the safety training described in this Ordinance, if necessary, upon and around the work and for the prevention of accidents, and after daylight hours, shall place, maintain and keep suitable sufficient lights, in accordance with the TMUTCD.

SECTION 50 **INSPECTION**

The permittee shall make the work site accessible to the city, and others as authorized by law, for inspection at all reasonable times during performance of the work.

SECTION 51 **MATERIALS TESTING**

The City will require testing of materials used in construction in or near the right-of-way to determine conformance with city construction specifications, including, but not limited to, compaction tests on backfill materials, subgrade, aggregate base course, Portland concrete (rigid pavement), asphaltic concrete (flexible pavement) and other construction materials as deemed necessary by the City. The right-of-way user shall, at his expense, hire a testing laboratory with current accreditation by the American Association for Laboratory Accreditation, American Association of State Highway and Transportation Officials (AASHTO) or another nationally recognized accreditation agency that verifies compliance with ASTM E 329 and that demonstrates the laboratory's capabilities to perform applicable ASTM or AASHTO test procedures, as may be required.

SECTION 52 **DUTIES OF PERSONS MAKING EXCAVATIONS OR CREATING OBSTRUCTIONS**

Any person who shall cause to be made any excavation or obstruction in any street or right-of-way shall not allow the same to remain there beyond a time reasonably sufficient for the completion of the work and/or removal of the obstruction, and shall repair the subject portion of

such street and/or right-of-way so as to restore the same to its condition previous to the making of such excavation or obstruction. It shall be the duty of such excavators to protect the area while such condition exists and promptly to repair the same so as to leave the street or right-of-way in as good condition as before the excavation.

SECTION 53 **EMERGENCY EXCAVATIONS**

Nothing in this Ordinance shall be construed to prevent any person maintaining any pipe, conduit or duct in or under any street, or right-of-way by virtue of any law, Ordinance or permit, from making such excavation as may be necessary for compliance with law or for the preservation of life or property when the necessity arises, provided that the person making the excavation shall notify the right-of-way manager within 24 hours. Except as specifically provided otherwise in this Ordinance for excavations authorized by this section, permittee shall be subject to all fees and requirements of this Ordinance.

SECTION 54 **EXCAVATIONS IN STREETS**

Except in case of an emergency there shall be no excavation in any street without the prior written approval of the right-of-way manager. Any request for a permit to excavate a street shall include a description of the proposed work and proposed restoration of the area, as well as a statement of clear and convincing evidence is provided to the right-of-way manager as to why alternate procedures cannot or should not be used in lieu of excavating a street. All pavement cuts and repairs shall be performed by a contractor with experience in street repair work. Any damage to pavement outside the removal area shall also be repaired subject to approval of the right-of-way manager.

- (1) Excavation in Portland cement concrete (PCC) pavement surface. If the existing pavement is PCC, the concrete shall be cut first with a saw to a depth of the full the thickness of the concrete or 6", whichever is greater, and the full width of the trench, which shall also cut any reinforcing steel. A second cut shall be 12 inches parallel to the first cut to full thickness of the concrete and excavated to undisturbed soil. Further criteria is set forth in the city's standard details.
- (2) Excavation in hot mix asphalt concrete (HMAC) pavement surface. If the existing pavement is HMAC, the HMAC shall be cut first with a saw to a depth of the full thickness of the pavement or 6", whichever is greater, and the full width of the trench, which shall also cut any reinforcing steel. A second cut shall be 12 inches parallel to the first cut to full thickness of the pavement and excavated to undisturbed soil. Further criteria is set forth in the city's standard details.
- (3) Jacking and boring. A permittee or right-of-way user shall perform all work in conformance with methods approved by the city and in such a manner as to not interfere or disturb existing or planned infrastructure.

- (4) Responsibility of excavated area maintenance. A permittee or right-of-way user shall warrant and be responsible for its repairs in the right-of-way for two years from the completion date of any repair.

SECTION 55
BACKFILL OF EXCAVATED AREA

(a) Open trenches may be temporarily backfilled for the convenience of the permittee or the public safety. Traffic bearing plates can be used temporarily in conformance with city requirements. At least one hour prior to beginning permanent backfill operations, the permittee shall notify the right-of-way manager of the time the backfill will begin.

(b) All excess water and mud shall be removed from the trench prior to backfilling. Any backfill placed during a rainy period or at other times, where excess water cannot be prevented from entering the trench, will be considered temporary and shall be removed as soon as weather permits. All disturbed base material or any base that has been undermined shall be removed and discarded. Compaction of all backfill shall be 95 percent of maximum density with a moisture content of minus two percent to plus four percent of optimum moisture content as determined by ASTM D698 under or near paved surfaces, future paved surfaces or otherwise as determined by right-of-way manager. Outside of pavement surfaces, compaction of all backfill shall be 95 percent of maximum density with a moisture content of minus two percent to plus four percent of optimum moisture content as determined by ASTM D698, and be smoothed, raked, and topsoil and grass or other landscaping installed to match the surrounding conditions.

SECTION 56
RIGHT-OF-WAY RESTORATION REQUIREMENTS

(a) The work to be done pursuant to the permit and any repair and/or subsequent restoration of the right-of-way must be completed within the dates specified in the permit. In the event of circumstances beyond the control of the permittee or when work is prohibited by unseasonable or unreasonable conditions, the right-of-way manager may, in his sole discretion, extend the dates on receipt of a substantiated supplementary application for a permit extension.

(b) All earth, materials, sidewalk, pavement, utilities, conduits, crossing, irrigation, landscaping, monuments, manhole covers, valve covers, meter box lids or improvements of any kind, which are owned or possessed by the city, and damaged, disturbed, or removed by a right-of-way user shall be fully repaired promptly by the right-of-way user, at its sole expense, to the reasonable satisfaction of the right-of-way manager with material approved by the City.

(c) After any excavation, the right-of-way user shall, at its expense, restore the right-of-way, trench envelope, pavement structure and the surrounding area, to the same or better condition than it was prior to the excavation. The restoration shall be made in accordance with specifications set forth herein, and the repair shall be covered by a maintenance bond for two years from the completion date of any repair.

(d) In the event the right-of-way user fails to restore the right-of-way in the manner and to the condition required herein, or fails to satisfactorily and/or timely complete all restoration, the city may, at its option, serve written notice upon the right-of-way user that, unless within five days after serving of such notice a satisfactory arrangement can be made for the proper restoration of the right-of-way by the right-of-way user, the city may take over the work and prosecute same to completion, by contract or otherwise, at the sole expense of the right-of-way user, and right-of-way user, and its surety, shall be liable to the city for any and all cost incurred by the city by reason of such prosecution an completion including, without limitation, the applicable public inconvenience penalty. Nothing contained herein shall limit any other remedies available to the city.

(e) If any excavation cannot be backfilled immediately, the right-of-way user shall securely and adequately cover the excavation and maintain proper barricades, safety fencing and/or lights as required, from the time of the opening of the excavation until the excavation is surfaced and opened for travel.

(f) In all right-of-way restoration, the right-of-way user guarantees its work and shall maintain it two years from the date of completion of any restoration. During the period following completion, the right-of-way user shall, in the event of any failure of the restoration, and upon notification from the right-of-way manager, reimburse the city for pavement restoration costs as provided for in this Ordinance. Additionally, the right-of-way user, in the event of such failure, shall within 48 hours of notice from the city, repair the subject trench envelope.

(g) The two-year guarantee period shall be applicable to, among others, failure of the pavement surface as well as failure of the trench envelope. Notwithstanding remediation of the pavement structure by the city, the right-of-way user retains repair responsibility at all times during the guarantee period for the trench envelope. In locations where two or more right-of-way users have made repairs in the exact same location, the last right-of-way user to excavate shall be responsible for the two-year guarantee in that location, unless the right-of-way manager determines, in his sole discretion, that a failure was most likely a result of work performed by another right-of-way user. That right-of-way user shall be responsible for the two-year maintenance period.

(h) All street excavations shall be perpendicular excavations, as possible, unless otherwise approved by the right-of-way manager. Excavations in streets, which are not perpendicular excavations require block-to-block and curb-to-curb pavement reconstruction, or other method of repair approved by the right-of-way manager. All repairs shall be equal or better than that which existed prior to the commencement of any work.

(i) No trench shall be opened for the purpose of laying pipes, conduits or ducts for a distance greater than can be backfilled on the same workday before sunset. Any variance from this requirement must be granted in writing from the right-of-way manager prior to work beginning.

SECTION 57
SAVINGS

Unless otherwise specified in the permit, restoration of the pavement of any street, alley, right-of-way or other public place shall be performed by the permittee.

- (1) No trench shall be opened in any street for the purpose of laying pipes, conduits or ducts more than 200 feet in advance of the pipe, conduit or ducts being placed in the trench, other than with the prior written consent of the right-of-way manager.
- (2) All excavations shall comply with the city construction standards, as amended, and requirements of this Ordinance. Unless otherwise required by city standards, as amended, or if unusual conditions are encountered, the right-of-way manager may require new standards for compaction, backfill and pavement restoration.
- (3) Any excavated pavement, debris and/or other rubble shall be removed, together with any surplus material, within one working day from the time such material is placed upon the street. After backfilling is completed, and prior to repaving the cut, the right-of-way user shall remove all loose paving material and trim the edges of the excavation at the street surface to the satisfaction of the right-of-way manager.
- (4) Whenever any caving occurs in the sidewalks of any excavation, the pavements above such caving shall be cut away, trench backfilled, compacted and sidewalk pavement restored. In no case shall any side or lateral tamping fill any void under a pavement.

SECTION 58
PERMANENT PAVEMENT REPAIRS

The right-of-way user will maintain the excavated area until permanent pavement restoration of the excavated area is complete. The right-of-way user shall make the final repairs within seven days on thoroughfares that are classified as major and within 30 days on residential, local and alley streets after the right-of-way manager makes final inspection. Backfill failures shall remain the responsibility of the right-of-way user.

SECTION 59
SUBSTANDARD REPAIR OF PAVEMENT OF RIGHT-OF-WAY

In case the pavement or the surface of the street, alley, or right-of-way in, over or near any excavation should become depressed, cracked or broken at any time or fails in any way at any time after the excavation has been made and during the two-year warranty, the right-of-way user shall comply with any applicable obligations of this Ordinance, including, without limitation, reimbursement to the city of the cost to restore the street and/or right-of-way.

SECTION 60
FAILURE TO COMPLETE WORK WITHIN SPECIFIED TIME

In the event any work governed by this Ordinance is not completed by the right-of-way user within the time required or in accordance with the specifications required herein or by the right-of-way manager, the right-of-way manager may cause such work to be performed as is necessary to secure the work area to a safe and passable condition. The right-of-way user shall reimburse the city for the costs of securing the site.

SECTION 61
REMOVAL AND RECONSTRUCTION WHERE WORK IS DEFECTIVE

All construction work in the streets, right-of-ways, sidewalks and public places of the city is declared to be subject to the exclusive control of the city, and whenever, in the sole opinion of the right-of-way manager, any such work shall not have been duly completed within a reasonable time or shall have been executed in a defective manner, whether because of bad workmanship or materials or because not true to the lines or grades or specification therefor given to him by the right-of-way manager, then upon written demand or notice from the right-of-way manager, such right-of-way user or contractor shall promptly remedy, complete and/or remove and reconstruct such incomplete or defective work all as the right-of-way manager may require, and these provisions shall also apply to all repair and maintenance work. If the contractor or right-of-way user shall fail or refuse to do so within a reasonable time to be specified by the right-of-way manager, then, if required by the right-of-way manager, such work shall be completed or corrected or removed and wholly or partially reconstructed by the city, in such a manner as in the opinion of the right-of-way manager may be necessary to make such work as good as originally required, and such work may be done by contract or otherwise, under the direction of the right-of-way manager, and the contractor or right-of-way user shall reimburse city for any and all cost incurred by the city performing the work described in this subsection.

SECTION 62
CLEANUP OF RIGHT-OF-WAY

In every case, and at all times, the work of removing from the right-of-way all obstructions, surplus materials, debris and waste matter of every description caused by and/or accumulated from the excavation shall be the sole responsibility of the right-of-way user. The right-of-way user shall maintain the area on and around the excavation and related work in a clean, safe and orderly fashion at all times during conduct of the excavation and shall clean the same area upon completion of work. Streets shall be cleaned by use of a vacuum street sweeper. The right-of-way user shall clean the surrounding area, as outlined above, within one day upon completion and approval of all trench work and pavement restoration unless the right-of-way manager, sufficient reason therefore having been given to his satisfaction, grants a written extension of time.

SECTION 63
REPORTING COMPLETION OF WORK

When the work under permit hereunder is completed, the permittee shall notify the city in accordance with the requirements placed on the permit. The City will schedule a final walk-through with the contractor to develop a final punch list of items to be remedied.

SECTION 64
EFFECT OF ORDINANCE ON PERSONS ENGAGED IN CONSTRUCTION

Any permit issued prior to the adoption of this Ordinance will remain subject to the terms and conditions of city ordinances and requirements in effect at the time of issuance of the permit and is not affected by this Ordinance, except that, upon expiration or conclusion of the permit, a new or renewal permit must be obtained in accordance with this Ordinance.

SECTION 65
LIABILITY OF RIGHT-OF-WAY USER

To the extent allowed by law, the right-of-way user shall be liable to the City for any damage or loss occasioned by any act and/or omission occurring in connection with its excavation, and subject to state law, the right-of-way user shall fully indemnify, hold harmless and defend the City, its council members, officers, employees, agents, representatives and volunteers from and against any and all suits, actions, judgments, losses, costs, demands, claims, expenses (including attorney's fees), damages, and liabilities of every kind to which the City, its council members, officers, employees, agents, representatives and volunteers may be subjected for injury of any type, death or property damage arising from or connected with any such act and/or omission. The City shall promptly notify a permittee, or right-of-way user, at the address set forth in the permit, or last known address, of any claim, suit or demand served upon the City and alleging negligent or wrongful conduct by the permittee or right-of-way user in connection with an excavation.

SECTION 65
INSURANCE

- (a) It shall be unlawful for any person, unless exempt under this Chapter, to construct, reconstruct or repair any sidewalk, driveway, curb or curb and gutter in any street, alley, easement or right-of-way of the City without having first executed and delivered to the City a current policy of liability insurance in an amount determined by the City, and such insurance must be conditioned as follows: that the principal shall fully indemnify and hold the City harmless from any and all cost, expense or damage, whether real or asserted, on account of any injury done to any person or property in the prosecution of the work, or that may arise out of or be occasioned by the performance of such work. The City shall have no duty to perform under this Ordinance until such certificate has been delivered to the department.
- (b) The City shall be entitled, upon request and without expense before issuing a permit, to receive copies of the policies and all endorsements thereto as they apply to the limits required by the City, and may make a reasonable request for deletion, revision, or modification of particular policy terms, conditions, limitations or exclusions (except where policy revisions are established by law or regulation binding upon any party to the policy or the underwriter of such policy). Upon such request by the City, the right-of-way user shall exercise reasonable effort to accomplish such changes in policy coverage, and shall pay the cost thereof.
- (c) Right-of-way user shall notify the City in the event of any notice of cancellation, nonrenewal or material change in coverage and shall give such notices not less than 30 days prior to the change, or ten days notice for cancellation due to nonpayment of premiums, which notice must be accompanied by a replacement certificate of insurance.
- (d) Nothing herein contained shall be construed as limiting in any way the extent to which the right-of-way user may be held responsible for payments of damages to persons (including death) or property resulting from the right-of-way user's, or its subcontractors', performance of the work performed in the public right-of-way.
- (e) The City owned utilities shall not be required to provide the insurance specified herein.
- (f) With respect to the right-of-way user's obligation to comply with the requirements for commercial general (public) liability insurance coverage, the City right-of-way manager may, in his discretion, allow the right-of-way user to self-insure upon annual production of evidence that is satisfactory to show the user has sufficient assets and history of performance to justify the user to self-insure.

SECTION 66
PERFORMANCE/ASSURANCE BOND

Before a permit shall be issued, the right-of-way manager may, in his discretion, may require the applicant and/or the person or entity for which the applicant is performing, to execute

and deliver to the City, to be kept on file with the City, a good and sufficient bond of performance or assurance, in the sum to be determined by the City and conditioned that the person making the application shall promptly adjust, pay and settle all legitimate claims for damages that may result by reason of carelessness or negligence in the manner of performing such work or by reason of any defects therein caused or arising from careless, negligent or imperfect construction thereof, and to hold the City, its councilmembers, officers, employees, volunteers, agents, and representatives, free and harmless from liability on all such claims for damages to the performance or assurance bond which shall cover the cost of repairs in or upon the street, sidewalk or other public place where the work is to be done that may become necessary by reason of such cut or excavation having been made. The bond shall be maintained until the work is accepted by the City.

SECTION 67
LIABILITY OF CONTRACTOR AND SURETIES
FOR MAINTENANCE AND REPAIR WORK

Any defects of workmanship or material relating to work done by an excavator during the initial project or becoming known, or which should have been known, during the guarantee period (the two years) shall be known as maintenance or repair work, and both the excavator and the sureties and/or the contractor's bond shall be fully liable for any default of such contractor under this section. In the event of a failure in the restoration of an excavation, the right-of-way user shall, at its sole expense, have one opportunity to repair, in a timely manner, the section of the restoration that has failed, which repair shall be in accordance with the standards set forth in this Ordinance. In the event of any subsequent failure of that section of the restoration, the City retains the right and option to terminate the right-of-way user's guaranty, upon written notice to the right-of-way user. In such event, the right-of-way user shall reimburse the City for its direct costs associated with the repair of the failure of the restoration work.

SECTION 68
WHEN ADDITIONAL SECURITY REQUIRED

In the event the right-of-way manager reasonably believes the contractor's or right-of-way user's solvency is threatened, the right-of-way manager may, at any time, make written demand on a contractor and/or right-of-way user for bonds, and the contractor and/or right-of-way user shall immediately furnish such additional bond or bonds to the City.

SECTION 69
DECISION OF RIGHT-OF-WAY MANAGER BINDING ON CONTRACTOR, RIGHT-OF-WAY USER AND SURETIES

If any question arises as to when any work was actually begun or other specific dates, the decision of the right-of-way manager shall be conclusive on the contractor, right-of-way user, and the sureties on all such bonds.

SECTION 70
VARIANCE/EXEMPTIONS

A permittee or right-of-way user may request a variance from any of the requirements of this Ordinance by filing a written request with the right-of-way manager stating the requirement and the basis for the variance. The right-of-way manager may reject incomplete variance requests. The applicant shall bear its own expenses of the application process.

- (1) Any request for a variance from any right-of-way restoration requirement shall be made in writing, in advance of any contemplated work and shall be accompanied by digitally formatted detailed plans of the substituted reconstruction and/or repair of the excavated area, if applicable.
- (2) Any request for an exemption and/or variance from any penalty and/or fee, other than as provided in this Ordinance, shall be made in writing, and shall be accompanied by a written detailed request stating the reasons therefore.
- (3) Any request for an exemption and/or variance from any permit, or any other requirement of this Ordinance shall be made in writing, stating in detail all reasons for the requested exemption and/or variance.
- (4) The department shall grant or deny an application for a variance and/or exemption within ten days of receipt of the application for variance and/or exemption.
- (5) Denial of the variance may be appealed in accordance with Section 24.

SECTION 71
CERTIFICATED TELECOMMUNICATIONS PROVIDERS AUTHORITY
REQUIRED/NONEXCLUSIVE USE

A CTP must provide evidence that the CTP has acquired authorization from the PUCT pursuant to state law, prior to obtaining a permit to use public right-of-way. The CTP's right to use and occupy the public right-of-way shall not be exclusive, and the City shall have the right to exercise its police powers and manage its public right-of-way, based on the Act and all other state or federal laws.

SECTION 72
TRANSFER AND NOTICE

A CTP shall notify the right-of-way manager of any sale, transfer, merger or assignment of the ownership or control of a CTP's business within 30 days of such sale, transfer, merger or assignment. A CTP shall also maintain and provide current point-of-contact information with the right-of-way manager at all times during which the CTP uses the right-of-way.

SECTION 73
EXEMPTION FROM FEES

CTPs are exempted from the following fees provided for in this Ordinance:

- (1) Permit application fee, including expedited application fee and permit expiration fee;
- (2) Additional permit fee;
- (3) Saturday inspection fee;
- (4) Registration fee.

SECTION 74
WAIVER BONDS

Unless determined otherwise by the right-of-way manager a CTP will be exempt from the bonding requirements of this chapter, however, in the event that the right-of-way manager determines, based upon reasonable grounds, that a bond is necessary to protect the public assets, and/or the health and safety of the public, then the right-of-way manager may require that a CTP post a reasonable bond not to exceed \$100,000.00. Factors to be considered in determining reasonable grounds may include, but are not limited to, a conviction for violation of this Ordinance, a general pattern of substandard adherence to the provisions of this Ordinance or the failure to comply with this Ordinance. If three years pass from the date that the right-of-way manager requires a bond of a CTP and it has not been necessary for the City to seek performance under the bond, then a bond will no longer be required pursuant to this section.

SECTION 75
CTP INDEMNITY

A CTP shall indemnify the City as specified by V.T.C.A., Local Government Code sec. 283.057, as may be amended. A CTP shall be exempt from all indemnity requirements of this Ordinance that are inconsistent with V.T.C.A., Local Government Code sec. 283.057, as amended.

SECTION 76
NETWORK PROVIDERS AUTHORITY REQUIRED/NONEXCLUSIVE USE

A network provider must provide evidence that the network provider has acquired all required authorization pursuant to state law, prior to obtaining a permit to use public right-of-way. The network provider's right to use and occupy the public right-of-way shall not be exclusive, and the City shall have the right to exercise its police powers and manage its public right-of-way, based on the Texas Local Gov't Code Chapter 284 and all other state or federal laws.

SECTION 77
TRANSFER AND NOTICE

A network provider shall notify the right-of-way manager of any sale, transfer, merger or assignment of the ownership or control of a network provider's business within 30 days of such sale, transfer, merger or assignment. A network provider shall also maintain and provide current point-of-contact information with the right-of-way manager at all times during which the network uses the right-of-way.

SECTION 78
NETWORK PROVIDER INDEMNITY

A network provider shall indemnify the City as specified by Texas Local Government Code, as may be amended.

SECTION 79
ADOPTION OF DESIGN MANUAL

The City hereby adopts the Wireless Services Design Manual pursuant to V.T.C.A. Local Government Code Chapter 284. A copy of the Manual is available in the City Secretary's office and online at: www.tiogatx.gov

SECTION 80
COMPLIANCE WITH DESIGN MANUAL

A network provider shall comply with the City's Wireless Services Design Manual as amended by the right-of-way manager.

SECTION 81
FEEES

STREETS, SIDEWALKS AND OTHER PUBLIC PLACES	
Right-of-way Management	
Permit application fee	100.00
Expedited application fee	250.00
Saturday inspection fee; each Saturday	200.00
Permit expiration fee; each permit for incomplete work on expiration date if not extended	30.00
Electronic maps submittal fee; per hour of labor necessitated by hard copy submittal in lieu of electronic format (minimum fee of 2 hours)	80.00
Registration per right-of-way user per year	50.00
Inspection fee	\$1.00/LF or \$150/day of anticipated construction time, whichever is greater

Small cell application fee (This penalty shall not exceed and is capped by statutory limits)	\$500.00 (1-5 network nodes); \$250.00 (each additional network node); \$1,000.00 per pole
Small cell user fees (this penalty shall not exceed and is capped by statutory limits)	\$250.00 annually for each network node; \$20.00 per year for town pole

Public inconvenience penalty					
Type of Facility	Unit of Cost	Penalty (Per day)			
		31-75 days	79-90 days	90-100 days	>>100 days
Sidewalk	Per sq. foot	\$0.0026	\$0.0052	\$0.0078	\$0.0104
Driveway	Per each	\$39.00	\$78.00	\$117.00	\$156.00
Public inconvenience penalties are assessed and calculated from the date of expiration of the permit until date of completion of work or repair or of final backfill if turned over to the department for repair. This penalty shall not exceed and is capped by statutory limits.					

11

**SECTION 82
PENALTY PROVISION**

Any person, firm, corporation or business entity violating this Chapter shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be subject to a fine not to exceed the sum of \$500.00, unless the violation relates to fire safety or public health and sanitation, including dumping and refuse, in which the fine shall not exceed the sum of \$2,000.00. Each continuing day's violation under this Ordinance shall constitute a separate offense. The penal provisions imposed under this Chapter shall not preclude the City from filing suit to enjoin the violation. The City retains all legal rights and remedies available to it pursuant to local, state and federal law."

**SECTION 83
CUMULATIVE REPEALER CLAUSE**

This Ordinance shall be cumulative of all other Ordinances and shall not repeal any of the provisions of such Ordinances except for those instances where there are direct conflicts with the provisions of this Ordinance. Ordinances, or parts thereof, in force at the time this Ordinance shall take effect and that are inconsistent with this Ordinance are hereby repealed to the extent that they are inconsistent with this Ordinance. Provided however, that any complaint, action, claim or lawsuit which has been initiated or has arisen under or pursuant to such other Ordinances on this date of adoption of this Ordinance shall continue to be governed by the provisions of such Ordinance and for that purpose the Ordinance shall remain in full force and effect.

SECTION 84
SAVINGS CLAUSE

All rights and remedies of the City of Tioga, Texas are expressly saved as to any and all violations of this provision of any other ordinance affecting the City's Ordinance regarding right-of-way management which have secured at the time of the effective date of this Ordinance; and, as to such accrued violations and all pending litigation, both civil and criminal, whether pending in court or not, under such ordinances same shall not be affected by this Ordinance but may be prosecuted until final disposition by the court.

SECTION 85
SEVERABILITY

The provisions of the Ordinance are severable. However, in the event this Ordinance or any procedure provided in this Ordinance becomes unlawful, or is declared or determined by a judicial, administrative or legislative authority exercising its jurisdiction to be excessive, unenforceable, void, illegal or otherwise inapplicable, in whole or in part, the remaining and lawful provisions shall be of full force and effect and the City shall promptly promulgate new revised provisions in compliance with the authority's decisions or enactment.

SECTION 86
PUBLICATION

The City Secretary of the City of Tioga is hereby directed to publish in the Official Newspaper of the City of Tioga the Caption and Effective Date Clause of this Ordinance as required by Section 52.011 of the Local Government Code.

SECTION 87
ENGROSSMENT AND ENROLLMENT

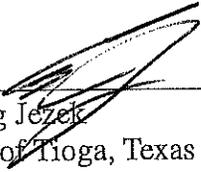

The City Secretary is hereby directed to engross and enroll this Ordinance by copying the descriptive caption in the minutes of the City Council and by filing this Ordinance in the Ordinance records of the City.

SECTION 88
EFFECTIVE DATE

This Ordinance shall become effective from and after its date of passage in accordance with law.

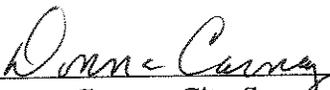

AND IT IS SO ORDAINED.

PASSED AND APPROVED by the City Council of the City of Tioga, Texas this *14th* day of August, 2017.

Craig Jezek
City of Tioga, Texas

ATTEST:

Donna Carney, City Secretary
City of Tioga, Texas
